

L'huile des records du monde

AGRIPRO 2– SAE 15W-40

Detergent oil for agricultural diesel engines

USES

For the lubrication of the non-supercharged diesel engines of agricultural materials when an API CD- or upper grade- is not required.

For recent or supercharged engines, use a motor oil of the TRANSPRO range or a multifunctional oil (AGRIPRO MUTI 5 or AGRIPRO MULTI 4). Can be used as a running oil before the use of an API CD lubricant (or upper grade).

MAIN CHARACTERISTICS

		Units	SAE 15W-40
Density at	20° C	kg/m ³	878
Kinematic viscosity at	40° C	mm ² /s	14.3
Kinematic at	100° C	mm ² /s	104
Viscosity index			140
Pour point		° C	-27
Flash point Cleveland Open Cup		° C	234

PROPERTIES & ADVANTAGES

- Excellent **shear stability**
- **Good** detergent and dispersant properties
- **Excellent protection** against rust, corrosion and wear
- Its multigrade characteristics maintain a good viscosity at high and cold temperatures.
