

L'huile des records du monde

ATF 33

Automatic transmission fluid

USES

Lubricating fluid for automatic transmissions, some manual transmissions, **powershift** transmissions (off-highway) and **power steering** when the **FORD M2C-33F** or **FORD M2C-33G** specifications are required by the OEM.

Particularly recommended for some kinds of transmissions for passenger cars (for example **BORG-WARNER transmissions**) and for **powershift shuttle** (JCB equipment).

MAIN CHARACTERISTICS

	Units	
Specific gravity at 20° C	kg/m ³	864
Kinematic viscosity at 40° C	mm ² /s	38
Kinematic viscosity at 100° C	mm ² /s	7.7
Viscosity index		177
Pour point	° C	-42
Flash point Cleveland Open Cup	° C	190

PROPERTIES & ADVANTAGES

- High viscosity index
- Low pour point
- Excellent resistance against the oxidation reactions bringing an exceptional stability of the oil
- Specific friction properties
- Non aggressive onto the rubber parts and the materials used in the modern transmissions
