# GRAISSE GAPL 2416

Special grease for centralised lubrication

## USES

Particularly adapted to the centralised lubrication of vehicles (heavy-duty trucks, heavy construction and agricultural equipment).

Can be used where a soft grease (NLGI 00) is required.

## MAIN CHARACTERISTICS

	NLGI 00 Grade
Colour	Red
Aspect	Smooth
Consistency (penetrability 60strokes)	410-450 ( $10^{-4}$ m)
Drop point	150°C
Thickener	Calcium
Weld load	200 kg

## PROPERTIES & ADVANTAGES

- Excellent anti-wear, extreme pressure and anti-rust properties
- Formulated with **synthetic bases** for increased **thermal performance**
- **Excellent properties** at low temperatures
- **Provides increased** protection against oxidation
- Efficiency between **-40 °C and +120 °C**

## CLASSIFICATION

**N.L.G.I. 00**
