

L'huile des records du monde

GRAISSE MULTIP EP 0

Multi-purpose grease

USES

Suitable for low pressure centralised systems, low temperature working applications. Also adapted to certain types of gears housing.

Perfectly suitable to the lubrication of cutting machines working on building materials.

MAIN CHARACTERISTICS

	NLGI 0 Grade
Colour	Light brown
Aspect	Semi fluid
Consistency	355-385 (10^{-4} m)
Drop point	> 170 °C
Thickener	Lithium
Weld load	= 315 kg

PROPERTIES & ADVANTAGES

- Good anti-wear, extreme pressure and anti-rust properties
- Very low water solubility
- Excellent **adhesion**
- Consistency is almost **fluid** for a **better flow** of the grease into the system
- Efficiency **between -20°C and +130°C**

CLASSIFICATION

N.L.G.I. 0

Extreme Pressure
