

L'huile des records du monde

GRAISSE MULTIP

Multiuses Lithium grease

USES

This grease is recommended for several parts of a vehicle : ball bearings, cardans and joints.

It is adapted to versatile uses under normal loads for equipment requiring a reinforced antiwear protection.

When an extreme pressure grease is required, use our YACCO GRAISSE HP or YACCO MULTIP EP2.

MAIN CHARACTERISTICS

	NLGI 2 Grade
Colour	Brown
Aspect	Smooth
Consistency	265-298 (10 ⁻⁴ m)
Drop point	190°C
Thickener	Lithium
Weld load	200 kg

PROPERTIES & ADVANTAGES

- **Exceptional antiwear** properties
- Mechanical stability
- Elevated lubricity due to the high melting point of the thickener
- Water resistance
- Protection against oxidation reinforced
- Maximum efficiency between **-15°C and +130°C**

CLASSIFICATION

N.L.G.I. 2
