

L'huile des records du monde

GRAISSE SELLETTE

Rotating plate grease

USES

Specially designated to lubricate the rotating plates of **heavy duty vehicles**.

Apply a **thin** coat with a brush after having removed the dirtiness and abrasive dusts.

(Do not clean up with solvents).

MAIN CHARACTERISTICS

	NLGI 1 Grade
Colour	Brown
Aspect	Smooth, adherent
Consistency	310-340 (10^{-4} m)
Drop point	> 250°C
Thickener	Inorganic
Weld load	> 500 kg

PROPERTIES & ADVANTAGES

- Very high adhesion
- The oil film absorbs the shocks and avoids any metal-metal contacts
- Excellent antiwear, antirust and antiseizing properties
- **Water insoluble**

CLASSIFICATION

N.L.G.I. 1
