AIR FILTER OIL

Lubricant for air filter moss

USES

AIR FILTER OIL is designed to fight against the clogging of the motorbike engines equipped with an air filter made with moss.

! : Not for use on paper filters.

PROPERTIES & ADVANTAGES

- Excellent **intrusion** power in the moss
- Creating a very efficient **protection** against dust, sludge, sand and other outside pollution.
- Decreasing the general **engine wear**
- Keeps the different engine units clean even after severe driving conditions.
- Insure long life to the engine

OPERATING PROCEDURE

1. Clean up the filter
2. Let the filter dry
3. Spray gently AIR FILTER OIL directly on the moss.
