

L'huile des records du monde

# HUILE DE CHAÎNE

## USES

---

This oil is used by motorbiker competitors. It is particularly adapted for the cross, enduro, trial and road working under **moderated conditions** (tourism, short ways).

For **high speed** uses (competition, motorway), do prefer Yacco **RACING CHAIN**

## PROPERTIES & ADVANTAGES

---

- High **lubricating power**
- Protection of the **toroidal joints** (O-Ring)
- Very good **water resistance**
- Good adhesion
- **Excellent penetrability** into the chain link
- Does not stick (with sand or dust)
- Very good **anti wear** and **anti corrosion** properties
- **Special additivation** to prolong the chain life
- **Reduces** friction and wear

## OPERATING PROCEDURE

---

1. Shake the aerosol
2. Spray on the **internal face** of the chain to enhance the lubrication.
3. Let the oil penetrate a few minutes
